THE LABOR DYNASTY

Brindell the New York federated trades official, has been collecting from two to ten dollars a week from men for permission to work for a living.

Temporary privileges for working as a carpenter were sold to any barber or bootblack who had twenty-five dollars to pay for the privilege.

On top of this the legislative examination shows he could assess a thousand dollars on any building contractor for giving him a working agreement.

If his demands were not met he could call a strike and tens of thousands of innocent workers were laid off in idleness to enable him to collect his blackmail.

And because of the hold this system has on labor as well as the rest of the country, the average honest worker must blindly and implicitly yield and obey or be refused the privileges of working and earning his living at all.

Is it any wonder the American, or open shop plan is to be inaugurated from coast to coast.

TO FOMENT THE REVOLUTION

Out of the millions of unemployed during the after war readjustment taking place in 1921-22 is to be founded the Soviet world revolution.

Russian Soviet authorities estimate that the unemployed in his country will number five million by the end of the year and two representatives have been sent to the United States by the Third Internationale to organize Soviets here, according to information from Moscow.

The representatives plan to form committees of the unemployed in connection with the Communist party, establishing Soviets of each trade. Their mission is said to unite the revolutionary movement in America into one fighting body to bring about armed revolution.

While the government officials underestimate the Internationale's estimate of unemployment, every precaution is being taken to keep the Soviet organizers from entering the United States.

A HUMBLE SUGGESTION

Industry and individuals have just been paying the last quarter of their income tax and it has been the hardest to raise of any payment since war taxes started.

Readjustment of our taxation system has been considered in order to lighten the tax burden and distribute it more equitably for individual and industry.

Secretary of the Treasury Houston submits a proposal which apparently does away with one form of tax only to add heavier forms of taxation to the average individual and industry in order to continue to raise taxes of war time proportions.

Would it be out of order for a citizen to suggest that ways be found for curtailing government requirements to meet the shrinkage in wage and commodity prices, rather than to find ways of increasing taxation on remaining industries and incomes in order to cover loss to government derived from wartime business and incomes which no longer exist.

In other words let the government get onto a peace basis the same as its citizens and cut out its cloth accordingly.

ANOTHER CITY FAILS

City officials of Cambridge City, Indiana, have notified the state public utilities commission that the city is broke, unable to borrow money and that unless permission is granted to surrender the municipally owned water and electric plant to a group of businessmen, the city will be left in darkness and without heat.

The city's predicament has been brought about by high costs and the impossibility of obtaining efficiency of operation in a commercial venture conducted by a municipality.

Seattle can sympathize with Cambridge City. Its \$15,000,000 car line has run in debt half a million dollars in two years and it must have \$1-3 and 10 cent car fares or load this additional burden on the taxpayer, along with the \$15,000,000 debt for the line, interest on same and half a million a year lost taxes formerly paid by the private company.

Where is that five cent fare the politicians said they would give the city when they got the line? The municipal line is free of state legislation and can increase fare with impunity. The people pay.

YOUNG MEN- PARENTS AND
THOSE OF YOU WHO STILL
RETAIN THE SPIRIT
OF YOUTH

Here is a magazine for which you have been waiting a long while. A happy combination of clean, stirring fiction and exceedingly helpful, straight from the shoulder articles by men of broad experience and exceptional ability.

Some recent contributors: Herbert Hoover, Donald MacMillan, Fred Stone, Charles Broadman Hawes and Holman Day.

Calvin Coolidge, the law and order governor of Massachusetts, in a letter to us says in part: "The Open Road is clean, animated and of genuine inspiration for courageous living. It seeks to convey a sense of the nobility of honest effort and the joy of achievement without pedantry."

In these days of high prices, it is difficult to get your money's worth. The Open Road gives not only a full measure but throws in a few extras for good will.

There is action on every page, with a liberal number of photographs and illustrative drawings by able artists. There is plenty of humor, too; you will enjoy a series of story cartoons now running.

The vocational department is performing a valuable service all over the country to young men who are in doubt as to what to make their life work. Find out about it.

Three dollars for a year of pleasure and profit in monthly installments.

Your subscription will be accepted at the office of this paper and forwarded to THE OPEN ROAD, 248 Boylston Street, Boston 17, Mass.

THE BEST COUGH MEDICINE

When a druggist finds that his customers all speak well of a certain preparation, we form a good opinion of it and when in need of such a medicine is almost certain to use it himself and in his family. This is why so many druggists use and recommend Chamberlain's Cough Remedy. J. B. Jones, a well known druggist of Cubrun, Ky., says, "I have used Chamberlain's Cough Remedy in my family for the past seven years and have found it to be the best cough medicine I have ever known."
